

**Date:** \_\_\_\_\_

**Name:** \_\_\_\_\_

### **Project One Checklist**

- ☐ Used clean, organized and properly indented code
- ☐ Used semantic elements to describe my content
- ☐ Used floats to lay out my site
- ☐ Included normalize, clearfix and border-box snippets in my CSS
- ☐ Used a separate CSS file and linked it to my HTML page
- ☐ Incorporated both img elements in my HTML and a background image in my CSS
- ☐ Used text-shadow or box shadow if the design called for it
- ☐ Used a gradient somewhere if the design called for it
- ☐ Used Google Web Fonts for Typography
- ☐ Name my HTML file index.html

### **Before Submitting**

- ☐ Before zipping up my files, I've renamed my project folder to the format:  
firstNameLastName-project1

### **Bonus Tasks**

- ☐ Went over code and made it DRY-er (Don't repeat yourself)
- ☐ Add a hover overlay with more information on the images
- ☐ Add a drop-down menu
